

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

PREFACE.

THIS volume, the first of a series of *Aberdeen University Studies*, is intended to supplement the same editor's *Fasti Academiae Mariscallanue, 1593-1860*, and *Officers and Graduates of King's College, 1495-1860*—which were issued by the New Spalding Club. It completes the publication of the extant lists of Alumni in Arts of the two academic corporations which were united in 1860 to form the University of Aberdeen.

The *Roll of Alumni* has been compiled from the matriculation and graduation albums, which contain an imperfectly consecutive record, and from sundry other manuscript registers preserved in the University library. Of these, details are subjoined:—

Some valuable information has been gleaned from the printed *Theses*, which usually contained the names of the candidates for the degree of A.M. There can be little doubt that from 1622, when Edward Raban began his work in Aberdeen, down to at least 1711, hardly a year passed without a King's College *Theses* appearing from the local press; but the editor has been able to trace only the following:—

Aberdeen that our selffs our sones or freinds ar admitted to competitiōne for ane burse : Therfor all and evry one of us binds and faithfullie obleidges us and evrie one of us that if it shall happen that our selffs sons or freinds efter tryell and examinatiōne prove veake in learning and not worthie to be admitted to the same benefices, In that caice we bind and obleidge us that if we put them to any Colledge upon our owne charges we shall put them to the King's Colledge abovesaid of Old Aberdeen ore wherever it shall happen then to sit for the tyme and that under the paine of ane hundreth pounds Scotts money to be peyt be ilk ane of us respectivlie (that happens to faillzie) unto the principall of the said Colledge or anie haveing the Colledge power to receive the samen, and that within fyfteine dayes efter it be made out and qualieffed that our sons or our selffs ar in anie other Colledge in Scotland befor the expyryng of ther four years course, unlesse we obtaine ane benefice in an other Colledge. Utherwayse we bind our selffs as is abovesaid to pey the penaltie of ane hundreth pounds Scotts money. . . . In wittness wherof we have subscryved thir presents with our hands (written be William Jack student in the said Colledge) at the said Colledge the thritteinth day of October the yeare of God J^m vith thrie score and eight yeares: Befor thir wittnes John Ross janitor, the said William Jack, and George Gordon of Kethiksmilne.

The entries in the matriculation albums are almost always autograph, while those in the graduation albums are usually in the handwriting of a Regent. When a student's surname has been recorded in different forms, an autograph spelling is selected where possible; when the autographs themselves vary, preference is given to the earliest. When the form in the graduation list differs essentially from that in the matriculation list, the former is added in brackets after "A.M.," and both forms are indexed; *e.g.*, Jacobus Wishart, A.M. (Sophocardius).

Under each quadriennium are entered the names of the original *bajan* matriculants, and of other students who subsequently joined the class as *semis*, *tertians*, or *magistrands*: the latter being distinguished as explained in footnotes to pages 5 and 120. The same student often appears in several classes, and where identity is obvious, a forward reference is inserted from the earlier to the later date.

An alphabetical arrangement under prenames has been adopted throughout the *Roll*, such being characteristic of the Aberdeen College registers. As the entries are with few exceptions in Latin, the order is regulated by the Latinised prename. Thus "William" must be looked for under "Gulielmus". It must further be borne in mind that certain prenames (such as "Petrus" and "Patricius," "Aeneas" and "Angus," "Donald" and "Daniel") are often used as interchangeable.

No attempt has been made to trace the fortunes of the students in after life, but academic degrees conferred on alumni, or academic offices held by them, have been noted. When a degree has no name of a University attached, it is, if prior to 15th September, 1860, from King's College; if after that date, from the University of Aberdeen.

The holders of certain other University distinctions are also indicated. In 1711, in 1716, and from 1718 onwards, the Faculty Minutes furnish the name of the "First Bursar," who stood at the head of the successful candidates in the annual competition, and who by academic tradition was marked out as the natural leader of his Class. In 1730 James Fraser (A.M. 1664, LL.D. 1725) founded a bursary, the presentee to which, while a student of theology, was to act as College Librarian. The Hutton prize, instituted in 1818 under the will of George Hutton (A.M. 1753), was the blue ribbon of the fourth or *magistrand* year, being awarded as the

result of an examination conducted, each in his own subject, by the Regents or Professors of Greek, Mathematics, Natural Philosophy and Moral Philosophy. In 1842 special prizes to those magistrands who made the most distinguished appearance in Greek and in Mathematics were founded under the will of John Simpson (A.M. 1779, LL.D. 1820); and it became customary for those winning the Hutton prize as well as either of the Simpson prizes to resign the former to the next in order of merit.

In footnotes will be found occasional corrections of entries in *Officers and Graduates of King's College*. When that volume was compiled, too great reliance was placed on the accuracy of the lists of names printed in *Fasti Aberdonenses* (Aberd., 1854) and *List of Persons admitted to the degree of M.A. at King's College* (Aberd., 1856); but not infrequent errors in these books have been detected by collation with the original record.

The editor has pleasure in acknowledging indebtedness to the care and zeal of his assistant, Miss M. S. Best, who checked the text of the *Roll of Alumni* with the manuscript sources, and compiled the statistics of Appendix B. He has also to record his grateful thanks to the Rev. Stephen Ree, Boharm, and Lieut.-Colonel William Johnston of Newton Dee, who read the proofs and made many suggestions of value. Mr. James F. Kellas Johnstone, London, has been especially helpful, and the editor owes much to his advice and encouragement. He not merely revised the text of the *Roll*, but verified every entry in the Index.

It may be noted in conclusion that the form of the *Roll* and of its Index is that of the *General Catalogue* of the older American Universities.

* Alexander Fraser demitted the Professorship of Greek in 1717, resuming the three year cycle as a Regent. The names of the non-graduates of this class (except A. Reid and G. Shand) are taken from a list of the Semis of 1717-18, which is given on the fly-leaf of Album D.

† Scholars with Mr. Burnet (*Minutes of 26 Sept. and 10 Oct. 1720*).

‡ Henceforward the names of entrants are taken from Album D, the degrees from Album C; with occasional additions and corrections from the transcript in Album E, from the Mortification Accounts, and from bursars' vouchers. Bursaries are not noted in this Roll if held only in the bajan year or by a student who graduates in due course. See 1692-96, 1753-57.

* *I.e.*, is a tertian in 1812-13, but does not appear again.

† As explained in the Preface, from Session 1812-13 onwards, separate records are kept of the bajans, semis, tertians and magistrands. These classes are indicated by the italic letters *b, s, t, m*, appended to students' names. A.M., without a date and without italic letters, implies that the student was *b, s, t, m*, in regular sequence, and graduated at the completion of his fourth session.

INDEX.

Surnames are given under their usual English spelling : other spellings and Latinised forms being added within brackets. All Christian names are Englished, and to each name is prefixed the first year of the Class which the Student attended. An affixed n indicates that the name occurs in a Note ; an affixed a that it occurs in Appendix A. The date of graduation is noted when the student's name does not occur in the corresponding class.
